Memorandum

To: All institutions participating in the Child and Adult Care Food Program (CACFP) and all sponsors participating in the Summer Food Service Program (SFSP)

From: Jackie Romain, Director 
Nutrition Services

Date: August 2, 2004

Re: Medicare Prescription Drug Card

The purpose of this memorandum is to explain how the subsidy that a household receives through the Medicare prescription drug discount card program must be treated when determining eligibility for free and reduced price meals in the CACFP and SFSP.

Please read the enclosed memorandum in its entirety. For questions concerning this memorandum, please contact Joya McKinstry, Policy Coordinator, at (404) 651-7181.

Subject: Policy Memorandum 226.23-22; 225.06-42; 245.03-18: Medicare Prescription Drug Card

To: All State Child Nutrition Program Directors
National School Lunch Program (NSLP)
Child and Adult Care Food Program (CACFP)
Summer Food Service Program (SFSP)

Authorized by the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA), the prescription drug discount card provides Medicare beneficiaries with negotiated prices that should be lower than the regular price of prescription drugs. Additionally, from June to December 2004, Medicare is providing through the drug discount cards a \$600 subsidy ("transitional assistance") to Medicare beneficiaries whose incomes are not more than 135 percent of the poverty line and who do not have certain other drug coverage. An additional subsidy of up to \$600 will be provided in calendar year 2005.

Section 1860D-31(g)(6) of the Social Security Act, as amended by the MMA, states that the availability of negotiated prices or transitional assistance received through the prescription drug card "shall not be treated as benefits or otherwise taken into account in determining an individual's eligibility for, or the amount of benefits under, any other Federal program." Therefore, in accordance with the MMA and regulations issued by the Centers for Medicare and Medicaid Services, any subsidy that a household receives through the prescription drug discount card program must not be treated as income in determining eligibility for free and reduced price meals under any of the Child Nutrition Programs.
