Revised March 2019
The Family Child Care Learning Home Applicant Guide was prepared to assist you with licensing to become a Family Child Care Learning Home provider. The following steps should be followed to complete the application process:

1. Read the Rules and Regulations for Family Child Care Learning Homes. Make sure you fully understand all rules and regulations, as you will be responsible for meeting all rules and regulations as a licensed Family Child Care Learning Home provider.

2. Read carefully and answer all questions listed on the “Rules Checklist” for Family Child Care Learning Homes, page 19. This form must be completed and submitted with your application. It is also a tool to help you determine if you meet the majority of the rules. Please retain a copy of the Rules Checklist for your files. If there are rules you do not meet, you are to start taking action to correct these rules. All rules and regulations are not on the list. Therefore, it is imperative that you read the Family Child Care Learning Homes Rules and Regulations thoroughly, as stated above in number 1.

3. Contact your local fire Marshall to determine if there are local ordinances that apply to operating a Family Child Care Learning Home in your area.

4. Submit with your application a letter from the local zoning department indicating your residence is zoned for a Family Child Care, or a letter stating there are no zoning regulations.

5. Submit with your application a valid business license with the facility address or a letter stating a business license is not required/or will be issued upon completion of the Bright from the Start licensing process.

6. After completing the above three items, please consider your ability to follow the rules and regulations for Family Child Care Learning Homes. If you decide to apply to become a Family Child Care Learning Home provider, you are agreeing to follow the laws that have been set into place by our legislature for the safety and well-being of children in the State of Georgia. If you decide to apply, please move to step 7.

7. Applicants and all other adults (17 years of age and older) residing in the home, or who will be present when children are in care, must be fingerprinted through Gemalto/Livescan. These record checks must be maintained in the home.

8. Do not submit any payment with your application. The non-refundable $50 license fee will not be accepted until permission to operate (PTO) is granted during the initial licensing visit. At that time, payment can be made at www.dealkoala.com after you have created an account.

Thank you for your interest in becoming a Family Child Care Learning Home provider. If you have any questions once you have reviewed the Family Child Care Applicant Guide, you may call (404) 657-5562 and ask for general intake. A consultant from our office will be happy to assist you.

Family Child Care Learning Home Definition and Fact Sheet

“Family Child Care Learning Home” and “Home” are defined 290-2-3-.03(g) “Family Child Care Learning Home” and “Home” means a private residence operated by any person who receives therein for pay for supervision and care fewer than 24 hours per day, without transfer of legal custody, at least three but not more than six Children under 13 years of age who are not Related to such persons and whose Parent(s) are not residents in the same private residence as the Provider and which is required to be licensed; provided, however, that the total number of unrelated Children cared for in such Home, for pay and not for pay, may not exceed six Children under 13 years of age at one time, except that a Provider may care for two additional children three years of age or older for two designated one hour periods daily upon approval by the Department.

- A Family Child Care Learning Home (FCCLH) is permitted by law to care for three (3) to six (6) unrelated children. The home that is issued a license must be in a residential zone and cannot be in a commercial facility.

- You may legally care for (2) children for pay until a license has been issued from Bright from the Start: Georgia Department of Early Care and Learning.

- Please allow approximately 30 days for processing of your complete application, fingerprints, and pre-licensure inspection.

- Upon approval of your application and initial licensing visit, you will receive permission to operate and may begin to care for 3 to 6 children for pay. You will then have 30 days from the permission-to-operate date to pay the annual license fee of $50. Once the license fee is paid, you will receive a license by e-mail that you must print and post. Bright from the Start is the only issuer of Family Child Care Learning Home licensure certificates.

- Bright from the Start is responsible for monitoring all Family Child Care Learning Homes to ensure compliance with the rules and regulations. All complaints received in reference to a Family Child Care Learning Home must be investigated. All visits, whether initial licensing, routine monitoring, technical assistance, or complaint investigations, may be unannounced. Your signature on the license application form is your consent and understanding that Child Care Services staff may visit your home at any time during operating hours.

- You will be required to pay the non-refundable license fee of $50 by December 1st each year on your user account at www.decalkoala.com if you continue to provide care for children in your home. Bright from the Start will send e-mail notices to remind you of this requirement. A late fee will be added if you fail to pay the license fee by the due date. Failure to pay the annual license fee will result in revocation of the Family Child Care Learning Home license.

- During your approved licensing period, if you voluntarily close you must notify Bright from the Start in writing immediately.

- Post Office or 911 Address Change: If your address has changed due to postal regulations or the new 911 emergency systems, you must submit proof of the address change, i.e., a copy of the 911 notices sent to you stating the address change. You can contact your local Post Office or the non-emergency 911 numbers for your county, and request a copy if you no longer have the one originally sent to you.

- E-mail Address Change: You must ensure that the e-mail address on file is current at all times. You will receive your license by e-mail and you are responsible for all information sent to you by e-mail.

- Moving/Transfer of License: The license does not transfer from one address to another. The license is only valid for the address printed on the certificate. You may request location change information by calling (404) 657-5562. Note: This process may require submission of new fingerprint results for the provider and new local criminal records checks for all adults in the home.

- Name Change: You must provide us with one of the following documents if your name has changed: a Marriage Certificate, Divorce Decree, Corrected Drivers’ License, or corrected Social Security Card.

- Required Training: Family Child Care Learning Home providers are required to obtain and maintain current Infant, Child and Adult (for children age 8 and above) Cardiopulmonary Resuscitation (CPR) and First Aid Training. Initial applicants are required to attend FCCLH-LOM (Family Child Care Learning Home - Licensure Orientation Meeting) and to complete 10 additional hours of training in five specific areas: Early Learning Standards, Communications, Leadership and Professional Development, Business Management, and Advocacy for Parents and Children (2 hours in each).
Child Care Resource & Referral (CCR&R) Agencies

Mission: The primary goal of the Resource and Referral Agency is to increase the quality and availability of child care in Georgia. There are six Resource and Referral Agencies, each serving a region, throughout the state. The Resource and Referral Agencies serve Georgia’s children and parents by providing a local source for information on child care and child development.

- Parent Referrals: Assist parents who are seeking child care. [www.qualityrated.org](http://www.qualityrated.org)
- Child Development Training: Training is available for child care providers, administrators, and parents.
- Technical Assistance: This service is provided for programs participating in Quality Rated. Consultation is provided on room arrangement, curriculum ideas, and many other areas.
- Websites: Check with your local CCR&R, they may have an active website with links to newsletters, training calendars, useful forms for child care providers, and other child care resources.

The Child Care Resource and Referral Agencies are funded by Bright from the Start: Georgia Department of Early Care and Learning through a federal child care development grant. To find out the name and phone number for your local Resource and Referral Agency, please refer to the back of the application for this information. You may also find this information at the Bright from the Start web site at [http://www.decal.ga.gov/ChildCareServices/CCRRSystem.aspx](http://www.decal.ga.gov/ChildCareServices/CCRRSystem.aspx)
Operating a Family Child Care Learning Home

As a beginning family child care provider, you want to be prepared to offer safe, quality care. Thoughtful preparation can make your home safer and your job easier. Consider the following:

…Be sure your family understands that changes will be inevitable, you will be a professional child care provider with up to six children spending the day in your home that require your attention and supervision.

…Decide the areas in your home that the children will be able to use and plan:

1. Places for children to store their personal belongings to include coats, bags, or items brought from home.
2. Areas for the children to have active play.
3. Storage for play equipment that is within the children’s reach.
4. Comfortable and safe individual places for children to nap.
5. Comfortable eating arrangements.

…Make a safety check of your home and playground area and plan for:

1. Protection from stoves, fans and heating equipment.
2. Locked and out-of-reach storage of household cleaners, poisons, and medicines.
3. Protection from or for stairs, electrical outlets, extension cords, breakable items, and furniture that is unstable, heavy, or has sharp corners.
4. Separation of children from area used for cooking.
5. An accessible playground area with a four-foot high fence or other approved barrier to protect from hazards and is free of trash, weeds, debris, holes, standing water, or other hazards.
6. An emergency plan to include fire safety and evacuation.
7. A neighbor to help in case of an emergency.
8. Posting of emergency telephone numbers.
9. Determining whether or not additional insurance protection is needed.

…Prepare a statement for parents, that describes the services and meals that will be offered, hours of operation, regulations, and charges (parental agreement or contract).

…Plan activities so that you will be free to devote your time to the children:

1. Develop nutritious menu plans that allow for a maximum amount of preparation ahead of time.
2. Develop a plan for the day so that children have comfortable routines that include supervised quiet and active indoor and outdoor play with age-appropriate activities.

…Set up a record system:

- Children’s records
- Attendance records
- Income/Expense records
  (Including records of home use for business/Internal Revenue Service will allow a percentage deduction because of child care use)

…Obtain the basic supplies

1. First Aid Kit – homemade or purchased, that contains all of the required items.
2. Individual or disposable drinking cups & towels, washcloths and diapering supplies
3. Age-appropriate play materials and equipment.

I hereby request licensure with Bright from the Start: Georgia Department of Early Care and Learning, Child Care Services Division, as a Family Child Care Learning Home. In making this request, I understand:

1. That I must provide care for no more than six children for pay who are not members of my household, or related to me, except for two one-hour time periods designated above, when I may keep two additional children ages three years and older.

2. That staff from Bright from the Start: Georgia Department of Early Care and Learning (Bright from the Start) may inspect my home at any time children are present.

3. That to deny entrance and/or meaningful access to the home, all children present in my home, and all records required by the Rules and Regulations to any Bright from the Start consultants or to refuse to cooperate with a consultant or an investigation is grounds for automatic denial or revocation of my license or imposition of any other sanction authorized by law.

4. That I must meet the Family Child Care Learning Home Rules and Regulations, Chapter 290-2-3, and correct any violation cited there under in accordance with a reasonable plan of improvement, or my license may be denied or revoked or any other sanction authorized by law may be imposed.

5. That I must provide the parents of each child in my care with a copy of the "Parent Handbook."

6. That I must obtain a fingerprint Criminal Records Check on each adult residing in my home and on any adults who may be present when children are in care and maintain them in my records.

7. That this license is valid only at the address on the application and is not transferable to another address or to another person.

8. I must receive and open all e-mails from the Department in order to receive proper notification of any waiver, correspondence, changes, or other notices from the Department.

9. If an adult listed on last year's application is no longer in the home, I must submit documentation to that effect.

10. I am required to pay a non-refundable license fee of $50.00 once permission to operate is granted for initial application and for each renewal year by Dec. 1st. Payment of the license fee can be done at www.dealkoala.com.

11. That, pursuant to O.C.G.A. § 20-1A-1, Bright from the Start: Georgia Department of Early Care and Learning recommends that all child care providers licensed by the Department maintain insurance coverage sufficient to protect the provider’s clients. I understand that if I do not maintain liability insurance, I will have to notify parents, obtain a written acknowledgment from parents, and post a notice at the child care facility stating that I do not maintain liability insurance.

12. NOTE: For facilities serving CAPS recipients, please note that scholarships are not transferrable to the new facility. In the case of ownership changes, new scholarships must be issued for the new owner to claim reimbursement. Please reference CAPS policy 10.4.1.2. Contact CAPS Support at 1-833-4GA-CAPS or 1-833-442-2277 for questions.

Providers serving CAPS families must be Quality Rated by 2020.

I HEREBY CERTIFY THAT I HAVE READ AND UNDERSTAND THE RULES AND REGULATIONS FOR FAMILY CHILD CARE LEARNING HOMES.

I HEREBY CERTIFY THAT I HAVE ASSESSED MY FAMILY CHILD CARE LEARNING HOME AND FOUND IT TO BE IN COMPLIANCE WITH THE FAMILY CHILD CARE LEARNING HOME RULES AND REGULATIONS (290-2-3). I HEREBY CERTIFY THAT THIS INFORMATION IS TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT ANY WILLFUL MISREPRESENTATION OF ANY OF THE ABOVE FACTS IS CAUSE FOR IMMEDIATE DENIAL OR REVOCAATION OF MY LICENSE.

Signature of Applicant                                      Date
1. Why do I have to complete the Affidavit for Lawful Presence Verification?
Effective January 1, 2012, Georgia law (O.C.G.A. Section 50-36-1) requires all applicants for a public benefit to verify their lawful presence in the United States before receiving the benefit. A Bright from the Start license or registration is a public benefit issued to the owner of a child care facility each year. Therefore, Bright from the Start must have the required verification documents before the annual license will be issued. An applicant is required to submit a completed and notarized “Affidavit and a copy of a secure and verifiable document or affirm that these documents were previously submitted. **You cannot pay your license fee or receive your new license each year until the Affidavit or Affirmation for Lawful Presence Verification has been completed, whichever is applicable.**

2. Am I required to submit an Affidavit for Lawful Presence Verification every year?
Those owners who were previously verified as U.S. citizens does not have to re-submit lawful presence verification. Their previous verification of U.S. citizenship continues to meet the requirements of the law. Child care learning center applicants must affirm each year that the lawful presence documents were submitted if the owner is the same. Those owners who previously submitted the lawful presence documents and are not U.S. citizens are required to submit the lawful presence documents every year. An Affidavit form is e-mailed on November 1st each year to owners who were previously submitted the documents as a legal permanent resident, qualified alien or non-immigrant.

3. What is an Affirmation for Lawful Presence Verification?
Completing an Affirmation is the process of confirming whether or not the owner previously submitted the documents and was verified as a U.S. citizen by Bright from the Start. Those owners who have previously been verified as a U.S. citizens are required to complete the Affirmation at www.decalkoala.com annually as part of the license fee payment process.

4. Where can I find an Affidavit for Lawful Presence Verification Form?
An Affidavit form, pre-printed with your facility information, will be automatically e-mailed to those owners who are not U.S. citizens each year on November 1st. Those owners who are U.S. citizens will complete an Affirmation at www.decalkoala.com. If the Affirmation indicates the applicant is a different person than last year who has not previously completed an Affidavit for Lawful Presence Verification (Option 4), a pre-printed Affidavit form will be e-mailed to the center.

5. What qualifies as a “secure and verifiable document”?
Only the documents approved by the Office of the Attorney General of Georgia are acceptable for processing. The most common copies of “secure and verifiable documents” are:
- U.S. issued passport or passport card
- U.S. military ID
- U.S. issued driver’s license
An entire list of acceptable documents can be found below.

6. Am I required to send an original document of one of the “secure and verifiable documents” on the Attorney General’s list?
No, a photocopy of the document (front and back, if there is anything on the back of the document) is acceptable and preferred.
7. Where do I send the Affidavit for Lawful Presence Verification and the secure and verifiable document?
The notarized Affidavit and copies of the front and back of the secure and verifiable document may be faxed to 404-463-7262 or scanned and e-mailed to ccsaffidavit@decal.ga.gov. Fax and e-mail are preferred and will allow the shortest processing time. If necessary, you may mail them to:

Bright from the Start
Georgia Department of Early Care and Learning
Attention: CCS Affidavits
2 Martin Luther King Jr. Drive SE, 670 East Tower
Atlanta, Georgia 30334

Do not submit the FAQ’s, instructions or list of secure and verifiable documents. These were sent to assist you and are not part of the Affidavit.

8. What should I do if the owner listed on the Affidavit form is incorrect?
The owner information printed on the Affidavit is the information we have on file for this facility. If this information is incorrect, please contact your licensing consultant immediately.

9. Can the Lawful Presence Verification form be notarized by a notary outside of Georgia?
Yes. The notary will list the appropriate state in the space provided.

10. Can the Lawful Presence Verification form be submitted with the notary’s stamp or seal or is one or the other required?
Either the stamp or the seal may be used to notarize the Affidavit form. A form without a stamp or a seal will be returned.

11. I already sent these forms to another department or division. Do I have to submit them again?
Yes, the law requires the department to obtain the forms for each benefit that will be issued.

Contact ccsaffidavit@decal.ga.gov for assistance with the Affidavit or Affirmation for Verification of Lawful Presence.

Criminal Record Check Acknowledgment Form

O.C.G.A. §20-1A-30 prohibits persons who have committed certain crimes from living in or being employed in Family Child Care Learning Homes or Child Care Learning Centers. The crimes are:

- any felony (in the state of Georgia, or any other state);
- all sexual offenses found in chapter six (6) of title 16;
- certain misdemeanors including:
  A) simple battery, when the victim is a minor;
  B) contributing to the delinquency of a minor;
- criminal attempt to commit any of the above listed crimes in accordance with O.C.G.A. §16-4-1.

A person must have been convicted of or entered a plea of guilty or nolo contendere to or have been adjudicated for any of the above crimes. A person that has been arrested for any of the above crimes may not live or be employed in family child care learning homes or child care learning centers until such time a court of proper jurisdiction dismisses the charges or a not guilty verdict is rendered.

O.C.G.A. §16-12-1.1(b)(c) makes it a misdemeanor for any operator of a facility to knowingly have any person reside at, be domiciled at, or be employed at any such facility if such person has been convicted of or has entered a plea of guilty or nolo contendere to or has been adjudicated a delinquent for certain offenses.

Bright from the Start: Georgia Department of Early Care and Learning may deny or revoke the license of any facility in violation of these requirements.

To my knowledge, no person lives at or is employed at the child care facility listed below who has been convicted of, has entered a plea of guilty or nolo contendere to, or has been adjudicated delinquent for any of the above listed crimes.

Criminal Record Checks: Frequently Asked Questions
for Licensed Child Care Facilities

GENERAL INFORMATION

1) What is a criminal record check (CRC) and who has to have one?
A criminal record check is a list of a person’s criminal history. The type of criminal record check completed will depend on the status of the person as an employee, potential employee, or family member who either reside at the facility, perform duties for the facility and/or have personal contact with the children in the facility.

Fingerprint Criminal Record Check: The director or provider and all adults must have a satisfactory fingerprint CRC. Fingerprint Processing – The individual submitting the application is required to contact Cogent Systems to register for electronic fingerprinting. Applicant may register online at www.ga.cogentid.com or by calling 1-888-439-2512. They will need to have the following information when registering: ORI number is GA 922290Z, Verification Code is 922290Z. Then the applicant will go to a Cogent Livescan location to submit electronic fingerprints. Applicants must also submit a signed and notarized criminal record check application to Bright from the Start with the application for license.

2) What if the provider or other staff and family members have already had a CRC done?
If you are changing the location of your licensed Family Child Care Learning Home and are pursuing a license at a new address or you are a brand new provider, you will have to have current copies of CRCs on file on the date of your Initial Licensing Study conducted by the Department. Current is defined as less than 1 year old. What this means is that fingerprint results on the Director and all local CRC results on family members/helpers, etc. have to be dated within the last year at the time of your visit for them to be valid. If they need to be redone – you will need to follow the process listed above in (1) to get those up to date.

3) What is a multi-source offender?
A multi-source offender is a person who may have charges on record in other states or countries. You cannot hire someone with a “multi-source offender status” without having that individual first submit a fingerprint criminal record check following the procedures described above. You must review the printout of the criminal history record for the “Interstate Identification Index” to determine if the applicant is a multi-source offender.

4) What am I required to send in to Bright from the Start to have a fingerprint CRC completed?
To have a fingerprint CRC completed, follow the procedures in number 1 above, Fingerprint Criminal Record Check. A fingerprint CRC must be completed for the director, FCCLH provider, on-site manager, and anyone required to have a local CRC who has a charge that is listed on the Crime and Conviction List on page 11 or has a listing of Multi-source Offender on their CRC results.

5) Can I begin working or hire a staff person before our criminal record checks have been completed?
A director or employee may not work until the satisfactory fingerprint records check determination is received from Bright from the Start.

6) How long is a Satisfactory Criminal Records Determination good for?
A satisfactory criminal records check is good for 12 months. If you move to another employer within the 12 months, you normally would not have to have your criminal record check completed again. You should have a copy of your satisfactory letter for the new employer. If you stay with the same employer the whole time, you normally do not have to get another criminal record check done, unless requested because of a questioned identity, abuse investigation, arrest warrant, etc.
7) What are covered crimes?
The crimes that are listed in law are referred to by us as “covered crimes.” If the applicant has been arrested, charged or convicted of one of the listed “covered crimes,” then that person’s criminal record is determined to be unsatisfactory. Covered crimes, as outlined in O.C.G.A. Sec. 20-1A-30 are crimes that will prevent an applicant from being employed in a licensed facility or home. The list of the covered crimes is on page 12.

8) At what age does an arrest go on my criminal history record?
Any arrest or fingerprintable offense committed after the age of 18 will show up on a CRC, unless the arrest record is expunged or sealed by the court. In some instances, arrests for persons under the age of 18 will appear on the CRC if the person was charged as an adult.

9) How long do an arrest and conviction stay on my criminal history?
An arrest and/or conviction can stay on your criminal history indefinitely. You will have to contact the law enforcement agencies/courts in the areas that the charge was made to request removal.

10) What should I look for if I am reading a criminal history record?
The following chart list common words/acronyms you may see on a CRC:

11) Who do I call if I have a questions concerning reading a criminal history record?
You should call the Criminal Record Check Unit at Bright from the Start or your local Child Care Services Consultant at (404) 657-5562 or (888) 442-7735. Ask for the consultant on intake and he or she will be able to provide you with your area’s consultant and contact information or the necessary guidance or information you will need to get your questions answered.

12) If an applicant has a covered crime and the local CRC does not show that the charge was dismissed but the applicant tells me it was, what must I do?
To be sure that the crime has been dismissed, the applicant must get a copy of the court record showing the charge was dismissed. If the charge was dismissed, then you are free to hire the applicant. Make sure you attach the court information to the criminal history record and keep it on file. If you are submitting the record to Bright from the
13) **If I have submitted court information concerning an arrest and have previously received a clearance to work in a licensed center or home, do I have to resubmit that information each time I apply to work in a licensed facility?**

Yes, each time you submit a criminal records check application to Bright from the Start you should attach a signed affidavit as outlined on the criminal records check application or certified copies of any and all arrests and dismissals that you know of. This will aid in speeding up the process of your criminal records check application.

14) **Can Bright from the Start remove information from my criminal history record once I have shown that the charge was dismissed?**

No, Bright from the Start cannot take anything off your criminal history record. Bright from the Start can only access the information that is on your criminal history record. Only the GBI under certain circumstances with information received from the courts can take any of the information off the GCIC criminal history record where good cause is shown. You must contact the arresting law enforcement agency to obtain an application for Local Record Expungement.

15) **How can I get information updated on my criminal history record?**

If you want to get your criminal history record updated, you should go back to the court where you were originally charged and ask them to assist you in getting your GCIC record updated to reflect the current status of your case.

16) **Where do I get a criminal record check application?**

You will find the criminal record check application on the Bright from the Start website at [http://www.decal.ga.gov/ChildCareServices/CriminalRecordsCheck.aspx](http://www.decal.ga.gov/ChildCareServices/CriminalRecordsCheck.aspx)

17) **How long does it currently take Bright from the Start to process a fingerprint CRC for a director or provider?**

You should allow 7 to 10 business days for the routine satisfactory fingerprint CRC to be processed and the letter to be issued. It may take longer if there are unique circumstances associated with the application, e.g. there is a covered crime listed but it is only an arrest and we are trying to determine whether the charge was dismissed, fingerprint cards are required.

18) **What is an affidavit, where do I get one, and does it have to be notarized?**

An affidavit is a signed statement in writing that is made under oath or affirmation before a person legally authorized to administer an oath or affirmation, for example a notary. A potential employee must submit the CRC application with an affidavit explaining any convictions for crimes, etc. In lieu of an affidavit, certified copies of court records can be accepted.

**FINGERPRINTS**

19) **Can I use fingerprint results from a former employer, such as the military or a school?**

No. Fingerprints are run using different codes for different types of employment. Applicant’s fingerprints must be submitted through the Cogent Live Scan process using the required routing numbers and verification codes for Bright from the Start.

20) **As a director coming from another center or home do I have to submit fingerprints again?**

If it has been less than a year since you received a satisfactory fingerprint check determination from Bright from the Start, you do not have to submit your fingerprints again as long as you can show proof of the satisfactory determination. If it has been more than a year since your last fingerprint check and you change jobs, you will have to submit your fingerprints again, using the Cogent Livescan process described in #1.

**APPEAL/HEARING PROCESS**

21) **If I get an unsatisfactory determination what do I do? Or whom do I call?**

If you receive an unsatisfactory determination, you will receive a letter from Bright from the Start, which lists the covered crimes that are causing you to receive an unsatisfactory criminal record check. You can appeal the unsatisfactory determination either because you were not convicted of the crimes that we show or because you...
believe that despite having been convicted of the crimes, you should still be allowed to work in a licensed child care facility or home. The letter explains how to request a hearing if you desire. General questions should be directed to Child Care Services at (404) 657-5562.

22) If I appeal the unsatisfactory determination, can I continue to work while waiting for the hearing?
No. Bright from the Start has no authority under the law to allow you to continue working while you are waiting for your hearing. It is a misdemeanor for a child care center or home to allow an employee with a “covered crime” to continue working and having any contact with the children while waiting for the hearing. Continuing to employ a person with an unsatisfactory criminal record check may result in the imposition of a sanction (for example, an enforcement fine) by Bright from the Start against the licensed child care center or home.

23) How long does it take to get a hearing and a decision? Is there any way to speed the process up?
The length of time varies considerably. You should plan on at least 4 months and possibly longer. You can speed up the process by getting certified copies of the court records on the crimes you were charged with and that are the subject of the hearing. If you get certified copies yourself and submit them to Bright from the Start, we can make the request to get the hearing scheduled sooner. If Bright from the Start requests the certified court records in writing, it can take a long time to get the court records back. Bright from the Start does not process your request for a hearing until the certified court records are received. Bright from the Start will notify you in writing when your hearing request has been sent to the Office of State Administrative Hearings.

24) Who actually schedules the hearings and how do I know when it has been scheduled? The hearing is actually scheduled by the Office of State Administrative Hearings once they receive all the required records from us. The Office of State Administrative Hearings is a separate state agency. We have no control over when they schedule hearings. After you receive a copy of the letter from Bright from the Start stating the hearing request has been processed, the Office of State Administrative Hearings will schedule the hearing and send you notice of the hearing date in writing. Questions concerning the scheduling of the hearing may be directed to the Office of State Administrative Hearings at (404) 657-2800.

COVERED CRIMES

This is a listing of crimes and convictions that could result in unsatisfactory criminal record check results *(child care facilities only)*

This extract from O.C.G.A. Sec. 20-1A-30 defines crimes:

20-1A-30. As used in this article, the term:
(1) „Center” means a day-care center, family childcare home, or child care learning center, which is required to be licensed under Article 1 of this chapter.

(2) „Conviction” means a finding or verdict of guilty or a plea of guilty regardless of whether an appeal of the conviction has been sought.

(3) „Crime” means any felony; a violation of Code Section 16-5-23, relating to simple battery, when the victim is a minor; a violation of Code Section 16-12-1, relating to contributing to the delinquency of a minor; a violation of Chapter 6 of Title 16, relating to sexual offenses; a violation of Code Section 16-4-1, relating to criminal attempt when the crime attempted is any of the crimes specified by this paragraph; or any other offenses committed in another jurisdiction which, if committed in this state, would be one of the enumerated crimes listed in this paragraph.

(4) „Criminal record” means:

(A) Conviction of a crime;

(B) Arrest, charge, and sentencing for a crime where:

(i) A plea of nolo contendere was entered to the charge;

(ii) First offender treatment without adjudication of guilt pursuant to the charge was granted; provided, however, that this division shall not apply to a violation of Chapter 13 of Title 16, relating to controlled substances, or any
other offense committed in another jurisdiction which, if it were committed in this state, would be a violation of Chapter 13 of Title 16 if such violation or offense constituted only simple possession; or

(iii) Adjudication or sentence was otherwise withheld or not entered on the charge; provided, however, that this division shall not apply to a violation of Chapter 13 of Title 16, relating to controlled substances, or any other offense committed in another jurisdiction which, if it were committed in this state, would be a violation of Chapter 13 of Title 16 if such violation or offense constituted only simple possession; or

(C) Arrest and being charged for a crime if the charge is pending, unless the time for prosecuting such crime has expired pursuant to Chapter 3 of Title 17.
**Items Needed for Inspection**

The pages found in this section are forms that Bright from the Start requires you to post or have available during your Family Child Care Learning Home hours of operation. The first form, the Family Child Care Learning Home (FCCLH) Rules Checklist is for your own personal review. Use it as a tool to see where you stand regarding the Bright from the Start Family Child Care Learning Home Rules and Regulations, Chapter 290-2-3, before and after you apply to become a provider. Please remember that the FCCLH Checklist does not cover all of the rules and regulations. You are responsible for reading the Family Child Care Learning Home Rules & Regulations and maintaining compliance with each rule and regulation. The rules and regulations can be found at [http://www.decal.ga.gov/ChildCareServices/RulesAndRegulations.aspx](http://www.decal.ga.gov/ChildCareServices/RulesAndRegulations.aspx).

Following the FCCLH Checklist are forms that Bright from the Start consultants will view when visiting your Family Child Care Learning Home. The consultants will be looking to see that these items are accurate, current, and posted so that they are easily seen by you, the children’s parents, and your helper/assistant:

- Bright from the Start License (You will receive your license once your application has been received, the initial licensing study has been completed, you have been given permission to operate, and you have paid the annual licensing fee.)
- Emergency Numbers (Posted near phone)
- Written Emergency Plan
- “No Smoking” Sign
- Fire Drill Record
- Statement of No Liability Insurance
- Parent/Guardian Acknowledgement of No Liability (Place a signed copy in each child’s file/Do not post)
- Parents You Have the Right poster

Each provider is required to have copies of the following items completed and available for the consultant to review:

- Criminal Record Checks
- Helper Orientation Form
- Enrollment Form (for each child in care)
- Immunization Records (for each child in care that is not enrolled in a school-age program)
- Current CPR (Infant/Child/Adult) Card & First Aid Certificate
- Training Certificates (a total of 10 hours for each license year)
- Infant Feeding Plan (for any child enrolled under the age of 1 year, with parent/guardian signature)
- Incident/Accident Reports
- Medical Authorization Forms
- Pet Vaccination Records
- Driver’s License (If providing transportation)
- Notarized No Compensation Forms (for any child in care that you are not receiving any pay for services rendered in kind or cash)
- Documentation for Related Children
- Lifeguard Certificate for any pool activity (where water is more than 2 feet deep)
Family Child Care Learning Home Rules and Regulations Checklist

This list is provided to assist you in evaluating and preparing you for your Pre-Licensing Visit. This checklist has been developed from the Rules & Regulations for Family Child Care Learning Homes (amended March 1, 1994). This is NOT an all-inclusive list, but covers many of the major areas in the Family Child Care Learning Home Rules and Regulations. As a Family Child Care Learning Home provider you are required to understand and comply with all family child care rules and regulations. You are required to complete this checklist, sign the affidavit on page 31 and send this checklist as a part of your Family Child Care application for license.

Emergency Procedure Examples

The following page is a form that you may use to assist you when stating the emergency procedures that you will follow in the case of an actual or practice emergency situation. Below are examples that you may use. Please create your own emergency procedures on the following page. Post your completed Emergency Procedure form in an area that you, as well as, your enrolled children’s parents, your family and assistants can easily view.

The following procedures will be followed in the circumstances listed below:

**In Case of Fire**: Get the children out of the house and meet at my designated “meeting place” (the large tree in the front yard). Call the fire department. Call the parent/guardian of each child in care. Call Bright from the Start: Georgia Department of Early Care and Learning-Child Care Services at (404) 657-5562 or my local consultant within 24 hours.

**In Case of Severe Weather**: Remain calm. Move the children into the hallway away from windows. In case of a tornado have the children place their heads between their knees with their backs to the wall. Listen to the radio for weather updates.

**In Case of Loss of Electrical Power**: Remain calm. Call the power company to report power loss, if in hot weather, open the window if possible. In cooler weather, put on warmer clothing or get blankets out for the children. Call the parents/guardians if the power will be out for an extended period time.

**In Case of Loss of Water**: Call the water department if in the city. Call the plumber if in a rural area. Call the parents/guardians if the water will remain out of service for an extended length of time. I have bottled water available for drinking, hand washing and toileting purposes in the case that water is lost for an extended period of time and the children are unable to be picked up by their parent/guardian.

**In Case of Serious Injury to a Child**: Call 911 or the ambulance service. Keep the child calm and comfortable until medical service arrives. Call the child’s parents to report the injury. Report the injury to Bright from the Start: Georgia Department of Early Care and Learning-Child Care Services (404) 657-5562 or my local Consultant within 24 hours.

**In Case of Loss of a Child**: Call 911 or the police. Call the child’s parent to report the loss. Keep the other children calm. Call my neighbor to help assist in the search. Look in the house, yard and surrounding areas.

**In Case of the Death of a Child**: Call 911 and the police. Call the child’s parents. Keep the other children calm. Report the death to Bright from the Start: Georgia Department of Early Care and Learning -Child Care Services (404) 657-5562 or my local Consultant within 24 hours.

You have the right:

• **To access this facility anytime your child is in care.**
  However, you need to immediately make your presence known to the person in charge of the facility.

• **To review a copy of the facility’s latest licensure evaluation report.**
  The facility director has the report.

A copy of the rules and regulations which apply to this facility is available. Please ask your provider to share them with you. You may also review the rules and regulations by visiting the Bright from the Start website at www.decal.ga.gov. These rules establish minimum requirements for the health, safety and well-being of all children in care.

Bright from the Start: Georgia Department of Early Care and Learning, is required by law to investigate complaints regarding rule violations. If you have any complaints or concerns about your child’s care, you may call (404) 657-5562. Inspections of facilities can be viewed on our website at http://www.decal.ga.us

Pets in the Family Child Care Learning Home

Family Child Care Learning Home Rules: 290- 2- 3-.11(1)(n)and (o)

Pets in the Home shall be vaccinated in accordance with the requirements of your local county Board of Health. Unconfined pets shall not be permitted in child care areas when children are present, except for supervised learning experiences.

Pets are found in many homes in Georgia. It is important to remember as a licensed Family Child Care Provider:

• You must have documentation that all your pets have been vaccinated according to local county Boards of Health.

• All pets must be restricted from the child care area, unless a pet is part of specific child activity.
  
  • You must be able to control pets and all other animals to keep the premises sanitary

  • Animals with a vicious propensity (such as, pit bull dogs, ferrets, poisonous snakes) are not allowed on the premises when children are present.

• Remember adequate supervision is a must!

A number of children are killed each year by an animal attack and many other children have required medical treatment such as stitches, tetanus shots or rabies prevention shots. Animal bites, scratches, and especially puncture type wounds, carry a significant risk of infection. Severe injuries such as multiple bites, deep or gaping lacerations, wounds with excessive or continuous bleeding, wounds which are painful or puncture-type, should receive immediate medical attention. Injuries that appear minor at first may become severe due to infection. This usually happens within 24 hours. Signs of infection include increasing pain, swelling, redness, drainage of pus, chills, fever, and red streaks.

If a child is bitten by an animal what do I do?

• Don’t panic!

• Remove the child from any further danger. If safe to do so, restrain the animal. Do not attempt to restrain any unknown animal.

• Perform appropriate first aid measures (apply pressure to stop the bleeding, call 911 or your local emergency number if medical assistance is needed.)

• Follow up by contacting the parent/guardian of the injured child, a veterinarian, the local Animal Control Department and Bright from the Start.
Keeping your Family Child Care Area Clean

The following are suggestions on how to help you keep your Family Child Care Learning Home area clean and free from contamination.

General cleaning and sanitizing procedures:
1. Wash surface or article vigorously with warm water and detergent.
2. Rinse with clean water.
3. Submerge, wipe, or spray with a solution of ¼ cup of chlorine bleach in 1 gallon of water or 1 tablespoon of chlorine bleach to 1 quart of water. Chlorine bleach is recommended since it is readily available, inexpensive, effective, and safe when diluted as instructed.
4. Wait 2 minutes and wipe dry or let surface air dry.
When properly mixed, bleach solution is efficient of twenty-four (24) hours. Bleach solution must be made fresh daily. We recommended that you make your bleach solution at the same time each day to establish an effective routine.

For hard, nonabsorbent surfaces:
1. Homes and centers caring for infants and toddlers should wash, rinse, and sanitize with safe sanitizing solution those articles and surfaces that have been or are likely to be placed in children’s mouths or in contact with the mouth.
2. Wash, rinse, and sanitize all other toys and surfaces when visibly dirty or contaminated with vomit, feces, urine, nasal discharge, etc. Develop a cleaning schedule for these items to ensure they are cleaned regularly.

For absorbent items (e.g. stuffed toys, bedding, clothes, etc.):
1. Use only washable stuffed toys, and dress up clothes.
2. Launder stuffed toys, sheets, and blankets regularly or when visibly dirty or contaminated with vomit, feces, urine, or other bodily discharges. Items should be washed in HOT water.
3. Laundered bedding items should be protected from contamination through proper storage, such as a closet, a shelf or in a drawer.
4. Do NOT store unsanitary or items that are not clean on the floor.

For carpeting: In those cases where infants and toddlers are allowed to play/rest on carpeted floors extra precautions need to be taken:
• Vacuum the carpet daily
• Shampoo the carpet regularly
• Spot clean the carpet immediately when an area is visibly dirty or contaminated with vomit, feces, or urine. Spot clean the carpet with commercially available products.
Crib with Waterproof Mattress for Infants

Family Child Care Learning Home Rule: 290-2-3-.12(2)

Provision shall be made for each child to have a comfortable, clean place to nap. A crib with a waterproof mattress shall be provided for each child less than one year of age.

Many providers ask.... Is a used crib safe?

Here are several safety tips for cribs:

A safe crib has:

• A firm, tight-fitting mattress
• No loose, missing or broken hardware or slats
• No more than 2 3/8 inches between the slats/bars (about the width of a soda can)
• No corner posts over 1/16 inches high
• No cutout designs in the headboard or footboard.

For mesh-sided sleeping equipment look for:

• Mesh less than ¼ inch in size, smaller than the tiny buttons on baby’s clothing.
• Mesh with no tears, holes or loose threads that could entangle the baby.
• Mesh securely attached to top rail and floor plate.
• Top rail cover with no tears or holes

If you plan to use a used crib, please ensure:

• The crib has not been recalled by:
U.S. Consumer Product Safety Commission
Washington, D.C. 20207
Hotline 1-800-638-2772
Website: www.cpsc.gov

• The crib has been approved by the manufacturer for sleeping and is appropriate in size for the child according to the manufacturer’s specifications.

Do not use an unsafe crib or piece of sleeping equipment for children in your care.
Your Guide to New Crib Standards

Child Care Providers

Beginning December 28, 2012, any crib provided by childcare facilities and family child care homes must meet new and improved federal safety standards. The new standards take effect for manufacturers, retailers, importers and distributors on June 28, 2011, addressing deadly hazards previously seen with traditional drop-side rails, requiring more durable hardware and parts and mandating more rigorous testing.

What you should know...

- All child care facilities, family child care homes, and other places of public accommodation
- Must prepare to replace their current cribs with new
- Noncompliant cribs, should not be resold through online craigslist sites or donated to local charter and
- Noncompliant cribs should not be resold through online craigslist sites or donated to local
- The new standards apply to all full-size and non-fullsize
- If you purchase a crib prior to the June 28, 2011 effective
date and you are unsure if it meets the new federal standard,
- You cannot determine compliance by looking at the product.
- The crib's manufacturer, retailer, importer or distributor to
- Show a Certificate of Compliance. The document must
- Include the name, address and telephone number of the manufacturer, retail
- Identify the model and the date the crib was manufactured
- Give the date on which the crib was tested to ensure it complies with the new standard.
- The crib must also have a label attached with the date of manufacture.
- The crib is not compliant with the new standards.

What you should do...

- Ask the manufacturer, retailer, importer or distributor to
- Provide you with the Certificate of Compliance
- Inspect the crib for any defects or wear that may indicate noncompliance
- Discard or replace the crib if it does not meet the new standards.
A SAFER GENERATION OF CRIBS
New Federal Requirements

5 New Federal Requirements:
- Traditional drop-side cribs cannot be made or sold; immobilizers and repair kits not allowed
- Wood slats must be made of stronger woods to prevent breakage
- Crib hardware must have anti-loosening devices to keep it from coming loose or falling off
- Mattress supports must be more durable
- Safety testing must be more rigorous

Beginning June 28, 2011 all cribs sold in the United States must meet new federal requirements for overall crib safety.

SafeSleep is a campaign of the U.S. Consumer Product Safety Commission.
Hanging Cords and Other Hazards
Family Child Care Learning Home Rule: 290-2-3-.11(2)(d)
Children shall not have access to hanging cords or other hazardous objects.

- Window cords and young children don’t mix. From infants to preschoolers, young children are unaware and unsuspecting of the many dangers of cords.
- When cribs are placed near a window, infants may be able to pull up to nearby window cords and pull them into the cribs and around their neck and/or head.
- Toddlers and older children can become tangled in window cords.

The key to window cord safety is to reduce the child’s access to the cords by:

- Making sure all cribs and low-standing furniture (beds, books, toy boxes, etc.) are moved away from windows. You may want to place them against another wall.
- Looking all pull cords into position whether the blind is up or down.
- Eliminating dangling cords by securing all pull cords out of reach by using a cleat or permanent tie-down device.

- Baby bibs with string ties cannot be used. Bibs are now available with Velcro and snap fastenings. Plastic and paper disposable bibs may be used with short ties for fastening.
- Cable and electrical cords must be inaccessible to the children in care.
- Television and radio cords also pose a significant risk and must be secured and inaccessible to the children in care.

For more information on cord safety or to get a free cord safety kit, call the Window Covering Safety Council at 1-800-506-4636 or [http://www.windowcoverings.org/](http://www.windowcoverings.org/)
Screens and Barriers for Heating Devices

Family Child Care Learning Home Rule: 290-2-3-.13(1)(e)

When in use, radiators, open fire, oil or wood burning stoves, floor furnaces and similar hazards shall have barriers or screens to prevent children from being burned.

Barricades/Barriers prevent children from being accidentally burned or injured when falling towards a stove, furnace or heating device.

Outdoor Areas Free from Hazards
Family Child Care Learning Home Rule: 290-2-3-.13(2)(a) & (b)
Outside grounds and play areas shall be kept clean and free of obvious hazards to the children's health and safety. Climbing and swinging equipment shall be securely anchored to eliminate accidents or injuries.

The outdoor play area shall be clear of hazards by checking and removing or making the following items inaccessible:

- Lawn and garden tools
- Construction materials
- Un-stacked wood
- Old Cars
- Lighter Fluid/Cleaning Agents
- Broken Toys
- Barbecue equipment/Grills
- Trash that is not in closed containers
- Tree roots
- Mop Buckets/Pails

- Check and empty buckets, wading pools and any object that retains water every time it rains.

- Check and cover any protruding bolts and screws on play equipment. (Covers for protruding bolts may be plastic cups/covers available at your local hardware store)

- Check for sharp or jagged edges and rusted equipment. If the equipment is seriously rusted or has broken parts, it should be repaired or removed from the play area.

- Check storage areas such as sheds, barns or garages for poisons and other hazards.

- The best solution is to keep the outbuildings locked and inaccessible to the children.

- Check all swing S hooks to be sure they are completely closed. (Closed hooks should look like the number 8)

- Always supervise children closely when children are allowed access to swing sets.

- Do not allow children to play near the swing set when other children are swinging.

- Talk to the children about staying out of prohibited areas.
Outdoor Fencing

Family Child Care Learning Home Rule: 290-2-3-13(c)

Such outside play areas shall be protected from traffic or other hazards by fencing or other barriers at least four feet in height and approved by the department. Fencing material shall not present a hazard to children. A fence shall be provided around swimming pools to make them inaccessible when not in use.

- Fencing is a protection for children from hazards such as swimming pools and traffic.

- Fencing around pools must be at least four feet high and meet local ordinances for swimming pools.

- If the hazard is not a pool then other barriers can be used. Such barriers may be natural or man-made. Some examples include a wall, a building, a hedge or other protective enclosure.

- You must have a fenced/approved barrier outside space for your children to play. Fencing or other approved barriers must be at least four feet high, secure, and prevent children from leaving the area.

- Fencing or any other barrier does not take the place of supervision. Providers should be with children at all times when they play outdoors. Have an answering machine or voice mail inside to answer calls when you are outdoors. You may have a wireless phone or cell phone outside with you to make calls in case of an emergency.

- Fencing should be free from openings a child can get through and from entrapment hazards (gaps less than 3 ½ inches wide).

- Fencing should be free of ready footing for climbing.

- Fencing should be free from hazards such as sharp exposed edges.

Other pool safety tips:

- Gates into the protected pool area, when the area is not in use, must be secured with a lock that a child cannot operate.

- If the pool is above ground, be sure exterior steps or ladders have been removed to make the pool inaccessible.

- Make sure the pump mechanism and other exposed pool equipment is enclosed and cannot be used as a climbing apparatus for the children to access the pool area.
FENCING

- Provide at least a 4-foot-high fence around the play area.
  - Material must be non-hazardous without any protruding metal or wires.

The following are approved fencing materials, if they are at least 4 feet tall:

- Chain Link (with closed, bent wire - no sharp points exposed along the top)
- Wooden (no gaps between boards, no splinters)
- PVC/plastic picket fence (if gaps between pickets, must be less than 3 ½ inches)
- Wrought Iron (if gaps between rails, must be less than 3 ½ inches)

Materials not approved: Barbed wire, chicken wire, farm wire (rectangular openings), lattice (plastic or wood)

- A fence must be installed to prevent a child from becoming injured or from leaving the play area by any other means than through an approved access route. The fence must be secured at the top and meet the ground and be secured at its base. Securing the base would prevent the entrance of rodents, etc.

- Any bolt used for installation should be turned toward the outside of the fence. If pointing inside, the bolts must be cut down to no more than two threads, then filed smooth or capped.

- All screws around the entrance gate can present a problem on either side.

- Any barrier other than fencing must be approved by the Department.

- Gas meters and/or heating and cooling equipment must have a secure fence or barrier around them to prevent children from having access to them. This fence or barrier must also be at least 4 feet tall.

**If barriers (i.e. landscape timbers, PVC perimeters) are added to the outdoor area to contain loose fill materials like sand/mulch, be sure that these barriers are not installed close to the fence line. The height of the barrier would reduce the overall fence height possibly causing it to be less than the minimum height of 4 feet.**
PLAY EQUIPMENT AND SURFACES

● Provide enough outdoor play equipment that is age appropriate to offer a variety of activities.

● Equipment must be in safe operating condition with no rusted, broken or missing parts and no protruding nails or screws.

● Tires used for play must have holes bored in them so water drains out.

● Specific requirements for swings and climbing equipment include:
  • Must be anchored securely in the ground.
  • Chain hooks on swings must be clamped tight.
  • Slides should be installed in shaded areas.
  • Require a resilient or bouncy surface such as wood chips, sand, mulch, or pea gravel underneath and in the fall zone.
  • Height of the equipment determines the depth of the resilient surface.
  • Six inches of resilient surface is required underneath and within the fall zone of equipment five feet or higher.
  • If less than five feet, the required depth of the resilient surface is three inches.
  • Borders may be needed to maintain loose fill materials at the proper depth.
  • Any border, such as timbers or PVC pipes, built to contain the resilient surface must be installed outside of the fall zone.

● If synthetic material is used, contact the Applicant Services Unit for approval of the material prior to installation. You will be required to provide testing specifications on the product you plan to install.

● It is important to develop a system to check the playground equipment and measure resilient surface regularly to assure that both are maintained adequately.

● Safety or encroachment zones of at least 6 feet should also be created between pieces of equipment as well as between the equipment and fencing.
FALL ZONE

Use zones (also called “fall zones”) should surround equipment by six feet on all sides in general. For swings, measure the height to the top of the swing bar; the use zone in front and behind swings will be two times that height (a seven (7) foot tall swing would have fourteen (14) foot use zone in front AND behind the swings). Use zones of stationary equipment may overlap if the equipment is six (6) feet apart and 30 inches high or less. If more than 30 inches high, overlap is allowed only if equipment is nine (9) feet apart. Slides greater than six (6) feet high require an exit use zone equal to their height up to eight (8) feet.

Supervision of Children
Family Child Care Learning Home Rules: 290-2.3-.07(7)
At least one adult shall supervise children at all times.

When you provide care for other people's children, you have a responsibility to assure their safety and well-being. The most important way to do this is to provide appropriate care and supervision of all children and maintain the required adult/child ratio.

As the Child Care Provider, you are:

• Accountable for everything that happens in your home, including those times when you leave the children in the care of your assistant or substitute.

• Responsible for providing a program that meets the developmental needs of the children in care.

• Responsible for assuring that there is appropriate supervision.

Supervision means:

• You are in the same general area as the children and immediately available to them at all times.

• You are directly overseeing the children and their activities at all times.

• You are monitoring all the children's activities by sight.

• You are outdoors with the children during outdoor play.

What is appropriate naptime supervision?

• You are awake and alert while the children nap.

• You stay on the same level of your house where children are napping.

• You keep all doors open if children nap in different rooms or areas.

• You visually check on each child several times during naptime.

You must be accessible to the children during naptime in case they have an emergency, i.e., asthma attack, breathing stops, or any other traumatic experience or in case of an emergency situation that requires evacuation, such as a fire.
DIAPERING PROCEDURES

STEP 1
Prepare for Diapering Before Bringing Child to the Table

- Changing table paper (if used) to cover the table from the child's shoulders to feet (in case it becomes soiled and must be folded over to create a clean surface during the change)

- Enough wipes for the diaper change (including cleaning the child's bottom and the child's and
teacher's hands after taking the soiled diaper away from the child's skin)

- A clean diaper, plastic bag for soiled clothes and clean clothes (if soiled clothing is anticipated)

- Non-porous gloves (if they will be used), and a dab of diaper cream on a disposable paper towel if cream is being used

Supplies should be removed from their containers and placed near, but not directly on, the diapering surface before starting the diaper change.

STEP 2

Avoid Contact with Soiled Items and Always Keep a Hand on the Child

- Wash hands with warm water and liquid soap
- Place the child on diapering table. Remove clothing to access diaper. If soiled, place clothes into a plastic bag.
- Remove soiled diaper and place into a lined, hands-free trash container. (To limit odor, seal in a plastic bag before placing into trash container.)

STEP 3

Clean the Child’s Diaper Area

- Use wipes to clean child's bottom from front to back.
- Use a wipe to remove soil from adult's hands.
- Use another wipe to remove soil from child's hands.
- Throw soiled wipes into lined, hands-free trash container.
STEP 4
Put on a Clean Diaper and Wash Child’s Hands

- Put on a clean diaper and redress child
- Place the child at the sink and wash hands following the proper hand washing procedure.

STEP 5
Clean and Disinfect the Diapering Area

- Clean any visible soil from the diapering table. Spray the diapering surface with bleach-water solution and wait more than 10 seconds before wiping with a disposable towel or allow to air dry.
- The recommended practice is to wait for 2 minutes to allow the solution to kill germs. However, if there is a delay of more than 10 seconds before the solution is wiped from the surface, this is considered adequate. The surface cannot be sprayed and immediately wiped.
- The diapering surface must be sanitized after each diaper change with a bleach-water or other approved sanitizing solution.
STEP 6

**Wash Your Hands and Record in the**

- Adult washes hands using the proper hand washing procedure without contaminating any other surfaces.

**Additional precautions**

All surfaces must be able to be sanitized - e.g., no quilted pads or safety straps, no containers that are stored on the diapering surface.

Toys that are played with or objects that are touched while children's diapers are changed must be put aside to be sanitized.
Toileting and the Toddler

Toilet learning can be a challenging subject for the child, parent or guardian, and caregiver alike - or it can be a rewarding experience for all. Knowing what to expect can help lessen some of the anxieties and make the learning fun. The following information discusses some developmental background on toilet learning, the importance of home/child care communication when toileting, and some helpful hints.

These behaviors indicate a child may be ready for toilet learning:

1. The child will have a bowel movement at a regular time.
2. The child is dry most nights.
3. The child wakes up dry from nap.
4. The child can hold urine for longer periods of time.
5. The child is around the age of 2.

If a child exhibits these indicators, then parents or guardians and caregivers should discuss starting with toilet learning. It also helps if a child shows an interest in toileting. A child must physically be capable of recognizing the internal signals that she or he is about to have a bowel movement or urinate, as well as perform the actions of holding on and expelling. Toilet learning is very individualized.

A positive relaxed approach is best, so remember:

1. Praise accomplishments and expect frequent "accidents"; mistakes will and do happen until the child is around five years old. Take these accidents in stride.
2. Waking control comes before sleeping control (plastic undies or diaper at night and nap)
3. Expect lapses, especially when a child is sick, tired, or really involved in an activity.

Helpful tips...

1. Have specific times when the child will try to eliminate.
2. Figure out if there is a pattern of elimination (always 'goes' about 9:00 and 11:30).
3. Always pre-warn the child of the upcoming event. "After you put that piece in the puzzle, it will be your bathroom turn."
4. Decorate the bathroom, making the bathroom look inviting to the children. This could include adding: colorful pictures, posters of songs, wind chimes or mobiles.
5. Acknowledge Children's Fears. Some children might be afraid of the flushing action of the toilet. Let the child practice flushing pieces of toilet paper. This is an easy way for the child to get used to the noise and the sight of things disappearing in the toilet.
6. Some children may be afraid of falling in: Have a potty chair, toilet seat adapter, or step stool available for the child to use. This will help them to feel more secure.
7. Recognize Successes (a success may be “trying” as well as “going”). Praise, Praise, Praise: When a child gets a positive reaction to something he/she has done, the child will be more likely to repeat that action. This holds true for toilet training, too. Praise the child when she has successfully used the toilet. But don't reprimand the child if they were not successful. Treat temporary setbacks as unfortunate happenings, NOT big mistakes!
Manual Dishwashing – Chemical Method

If you do not use a dishwasher or disposable dishes the following manual dishwashing procedure must be used. If you prepare food for the children in your care, you should follow these guidelines when cleansing your cooking materials.

Approved Procedure – Pre-rinse or scrape, Washing, & Sanitizing

**Pre-rinse**
Scrape Dishes First, Removing All Food Items.

**Wash**
Wash Dishes In Water At About 100°F With A Good Detergent.

**Rinse**
Rinse Dishes Thoroughly In Clean Hot Water After Washing.

**Sanitize**
Dip Each Dish In Warm Water With 1 Tablespoon of Bleach to Each Gallon of Water. Let Dishes Soak for 2 Minutes.

**Air Dry**
Place Dishes in Drying Rack to Air Dry.

If you have to use your kitchen sink to wash your hands after diapering and you prepare food in your home please note:

You must sanitize the sink between each diaper change and before you begin food preparation.
Encouraging Good Food Habits

Rule 290-2-3-.10(1): Children shall be served all meals and snacks as scheduled for the period of time in which they are present. Rule 290-2-2-.10(2): Meals and snacks with serving sizes dependent upon the age of the children shall be nutritious, well-balanced, and varied.

Did you know?

• For healthy growth and development, children need snacks and fluids between meals. Generally, 20% of a child's food calorie intake comes from snacks.
• Snacks can provide additional energy that children need to avoid late-morning and mid-afternoon slump
• These snacks should be carefully planned to be nutritious and age appropriate.

Why do children need snacks?

• Children’s bodies have a constant need for energy replacement.
• Children’s stomachs are not large enough for them to eat enough at each meal to last all the way to the next meal.
• Snacks between meals allow children to meet their basic level of calories necessary to grow, think, and play.
• Ample fluid intake throughout the day can help avoid dehydration of the child’s body.

Guides for Planning Safe and Healthy Snacks…

• Mid-morning and mid-afternoon snacks should be considered an extension of breakfast and lunch. Nutrients missed during meal time can be added to a child’s diet at snack time. This is why it is important to carefully plan nutritious snacks.
• Potential choking hazards exist for children under age 4 for hot dogs rounds, carrot pieces, popcorn, nuts, grapes, peanut butter, hard candy and marshmallow. Use close supervision when young children are eating.
• Infants should never be given chocolate, citrus fruit, egg whites, honey or shellfish. Healthy snacks served approximately 2 hours before the next meal usually will not affect an active child’s appetite.
• Nuts can pose a choking hazard for children less than 4 years of age.

Snack and Mealtime can be a Learning Experience

In addition to providing a significant part of the child’s daily food intake, snack time offers many interesting and important learning opportunities.

• Try new foods, and explore how they look, feel, sound, and smell.
• Develop ideas about different shapes, colors, textures, weights, amounts, etc.
• Develop social skills by talking and being with others.
• Discuss the science of food – how it is produced, how it is prepared, its importance to growth,
• Develop a willingness to try different things through eating new foods.
• Encourage age appropriate table manners.
• Share special events (birthdays, holidays, etc)
• Share with one another food that they have prepared themselves, e.g. age appropriate food preparation activities.
• Enjoy a variety of foods.

Georgia Child Restraint Information Sheet

Rule: 290-2-3-.11(2)(j) If children are transported in an automobile by the Provider or a Home’s Employee, the driver should have a current driver’s license and children shall be restrained by either individual seat belts or appropriate child restraints in accordance with state laws. No child shall be left unattended in a motor vehicle.

Who must buckle up?
Ga. L. 2000, pg. 763, Code 40-8-76, item B (b)(1) Every driver who transports a child under six years of age in a passenger automobile, van, or pickup truck, other than a taxicab as defined by Code Section 33-34-5.1 or a public transit vehicle as defined by Code Section 16-5-20, shall, while such motor vehicle is in motion and operated on a public road, street, or highway of this state, provide for the proper restraint of such child in a child passenger restraining system appropriate for such child's height and weight and approved by the United States Department of Transportation under provisions of Federal Motor Vehicle Safety Standard 213 in effect on January 1, 1983 with a few exemptions.

Changes to child restraint law (40.8.76) and seat belt law (40.8.76.1) as a result of HB 217 went into effect on July 1, 2004.

Child Restraint Law - 40.8.76
Requires appropriate restraint use for all children under 8 in a passenger automobile, van or pick-up truck.

Vehicles exempted:
- taxi cabs;
- public transportation;
- until July 1, 2007 vans that are used for the transportation of children over 4 years of age that are operated by licensed or commissioned child care facility, with a current annual transportation safety inspection certificate and evidence of being inspected for use by a child care facility. However, children age 5 must be properly restrained by a safety belt, and;
- multifunction school activities buses, as defined in the Federal Register, for children age 5.

Exceptions:
- a lap belt may be used for children weighing at least 40 pounds when the vehicle is not equipped with both lap and shoulder belts, or;
- lap and shoulder belts are being used to properly restrain other children;
- if a parent can show that the child's height is over 4'9”, the child must be in a safety belt.

Children under 6 must be in the rear seat unless:
- there is no rear seating position, or;
- all appropriate rear seating positions are occupied by other children;
- children in the front seat must be properly restrained in an appropriate seat used according to the manufacturer's instruction.

Safety Belt Law 40.8.76.1(e)(3)
Each minor eight years of age or older who is an occupant of a "passenger vehicle" must be restrained by a safety belt.
“Passenger vehicles" are defined as every motor vehicle designed to carry 10 or less and includes pick-up trucks for occupants less than 18 years.
Guidelines for Positive Discipline

290-2-3-.11(3) Disciplinary actions used to correct a child’s behavior, guidance techniques and any activities in which children participate or observe at the home shall not be detrimental to the physical or mental health of any child.

Positive discipline is a guidance process that helps children:
• Learn to make positive choices.
• Learn problem-solving skills.
• Learn basic human values of respect, trust, responsibility, honesty and care for others.
• Learn to self-regulate.

To help obtain these goals you can:
• Focus on the child’s immediate environment.
• Understand children’s differences.
• Anticipate and prevent potential problem/situations.
• Create rules and routines based on the children’s needs. Familiar routines and a clear set of rules fairly and consistently enforced, let children know what you expect and that enables them to experience a greater sense of independence and competence. By anticipating problems and setting rules (if necessary) to avoid them, you cut down on the need for “behavior management.”

When rules are no longer needed, change or eliminate them:
• Be consistent in using positive communications. Offer encouragement, not empty praise.
  For example, “You remembered to clean up your place at the table today.” Rather than, “What a good girl you were today!”
• Provide information rather than just stating rule, but make it short and specific. For example, “Hang up your coat, so people won’t walk on it and get it all dirty.” Rather than: “Hang your coat up!”
• Focus on children’s feelings and the actions that result, not on the children themselves. For example, “What made you feel so angry with Patrick that you felt like hitting him?” Rather than, “Don’t hit! Bad boy!”
• Focus children’s attention on a positive event to come rather than the present disagreeable task. For example, “As soon as you pick up the blocks you were playing with, you can join us outside”. Rather than, “Hurry up and pick up those blocks!”
• Focus on positive behavior in the group rather than negative ones. For example, “Almost everyone remembered to push in chairs today!” Rather than, “Some people are still forgetting to push in chairs!”
• When there is damage to materials or equipment, focus on how it affects the group rather than look for the “culprit”.
• Tell children exactly what you expect and express confidence that children will follow.
• When children are upset, respond to the feelings underlying their threats and not the threats themselves. However, do not assume that you know what each child is feeling and be aware that the child may not ‘know’ why he/she is upset.
• Give children choices when there are genuine choices. Part of respecting children is giving them choices whenever possible. Example, “Do you want to sit in a chair to put on your shoes, or on the floor?”

Redirect the child’s attention. Sometimes this involves telling the child what behaviors are acceptable.
• Settle problems quickly and follow through completely. If a child refuses to choose among options available to them, you need to choose for them. For example, “It looks like you can’t decide whether you’re going to put your shoe on or not. I can’t spend any more time waiting for you to decide. You may sit over here out of the way while you’re deciding what to do”.

Logical and Natural Consequences: A logical consequence should match the unacceptable behavior.
• Explain limits and consequences ahead of time.
• Establish consequences based on appropriate expectations for that child.
• Respect the child.
• Make statements in a calm non-threatening way.
Example: “Yes, I know that you enjoy art time. I’m sorry you are missing it, but you scatter these toys all over the classroom and it takes a long time to put them back where they belong.”

Use of time out:
• Time out can be useful if it is a cooling-off period rather than a punishment. Children sometimes need a quiet place they can go to for a few moments to calm down. They can rejoin the group when they are ready.
• A structured time out is used to help children calm down when they cannot do it without help. The time out should be a specific place, where there are no activities to do.
• Time out should always be short giving the child one minute per year in age to think about their actions, e.g. 2 years old no more than two minutes away from the group and under proper supervision.

Positive steps in conflict resolution:
• Anticipate and eliminate potential problems.
• Have a well-planned daily schedule.
• Redirect the children.
• Model appropriate behavior for the children.
• Provide individualized attention to help the children deal with particular situations.
• Focus on behavior and not on the child. If you are angry with a behavior, let the child know that you like them, but you did not like his/her behavior.

Inappropriate forms of discipline:
• Never punish children.
• Never shame child.
• Corporal punishment is forbidden. This means no:
  1. Striking, kicking or popping a child.
  2. Shaking, pulling or pushing a child.
  3. Grabbing a child by the hair or ears.
  4. Pinning the child to the floor or against the wall.
  5. Sitting on a child.
  6. Squeezing a child across the throat or lower abdomen, which may make it difficult for the child to breathe.
  7. Forcing the child to eat an unpleasant substance like soap.
  8. Giving a child permission to do any of the above to another child.
Please….Don't Shake The Baby

What is Shaken Baby Syndrome?
It is a condition caused by shaking a baby so hard that the baby's head flops back and forth. This is not an injury that happens when you are casually playing with a child.

What happens to children who are shaken violently?
They may go blind or have brain damage leading to a number of severe, lifelong disabilities. They may even die.

When and why does it happen?
Crying seems to be what most often pushed caregivers over the edge into hurting children. Babies cry for many reasons. Most of the time, you can calm them by feeding them, rocking them or changing their diapers. But, when babies cry for a long time and cannot be quieted, you can get frustrated. You may feel like shaking the baby hard trying to make them be quiet, which upsets the child more; the crying continues and injuries result from the baby being shaken.

What can you do when a baby cries?
• Feed the baby slowly, and burp him by patting gently on his back.
• Hold the baby against your chest and walk or rock him.
• Offer the baby a pacifier.
• Put on soft music and sing.
• Place the baby into a baby swing for a short time.
• Take the baby's temperature. If he/she has a fever, call the parent.

When nothing works. . .
• Lay the baby on his/her back, in the crib, away from the other children.
• Take a break, calm yourself and get control.
• Check the child’s body for a physical injury that may have occurred when you were looking away from the child.

BITING

What Can I Do To Stop It?
There is no quick cure.
Your most valuable assets as a caregiver are a calm approach and patience.

The following scenarios are from the Division of Child Day Care Licensing, Michigan Department of Consumer and Industry Services:

Angela is a year and a half old and is getting ready to go outside. This is her favorite part of the day. As the children gather by the door, Angela is squealing with delight. She looks over at two year old Kevin and bites his shoulder. He screams, which surprises Angela, and she begins to cry.

Three-year-old Adam is playing with the Lego’s. As he bends down to pick up one of the pieces that just fell on the floor, Tamika (2 ½ years) walks up and takes two of the Lego’s off the table. When Adam sees this, he begins shrieking at the top of his lungs. Tamika is frozen in shock; a split second later Adam is lunging forward and sinking his teeth into Tamika’s arm. She drops the Lego’s and runs crying to her caregiver.

Do these young children really want to hurt the children they play with? Are these mean, cruel, intentional acts of aggression? Chances are, no. Biting happens in almost every day care center and home that cares for young children.

To be successful child care providers, we must
- recognize children’s reasons for biting,
- react appropriately, and,
- take proper measures to prevent further incidents.
- working with parents is essential.

Why Do Young Children Bite?
Biting is a natural part of children’s development.
Infants and toddlers put everything in their mouths. It feels good to bite and chew while you’re teething. Toddlers and young preschoolers don’t have the verbal skills to fully express themselves. Biting brings about a quick and dramatic response. Children experience many emotions (positive and negative) that are difficult for them to express and, at times, control. These emotions can be caused by numerous things, such as: over excitement, frustration, fatigue, and fear of being separated from people they love.

How Can I Prevent Biting?
A good program that meets the needs of children and has a lot of equipment is the key to minimizing biting!

Look around your home or center.
- Is there enough space for children to move around without bumping into each other?
- Are there enough toys for each child to have several to choose from at any one time?
- Do you have enough activities planned to keep the children involved and interested?
- A conflict over a toy or personal space can be enough to cause a child to bite.

Know the temperaments of the children you care for.
- Children may be more likely to bite if:
  - They are more aggressive and physical or
  - They have difficulty expressing their feelings in words
Look for pattern in a frequent biter.
Are there particular times of the day in which the biter has difficulty? Be there ahead of those times. Does the biter focus on one child? You may want to keep them separated as much as possible. Do toys seem to be the cause of many biting incidences? You may need more (or duplicate) toys so every child has several to choose from at any one time.

Encourage the use of words to express feelings and emotions.
Help children understand that words can be used to express feelings. You may need to teach the children words that are appropriate. Children who can verbally express themselves will be less likely to lash out physically.

Recognize good behavior when it happens.
Most children look for attention. If they get it during positive behaviors, they will be more likely to continue those behaviors.

How Should I React?
Remember, biters are usually looking for help and/or attention. Expect that biting may occur at some time with every infant or toddler. Your task is to carefully and thoughtfully handle the situation, and move on, so not to reward the child with your attention.

STOP the action. Say, “NO”!
Quickly assess the situation to determine the cause of the biting.
- Is the infant hungry or teething? Do I have something appropriate for the infant to chew?
- Attend to the victim. Wash area with soap and water, apply cold compress if swollen, comfort child.
- Talk to the biter: Tell the biter, “Biting hurts! Teeth are not for biting children. Teeth are for eating food.” If you think the child bit for emotional reasons, you can say, “It’s o.k. to be upset (mad, frustrated, excited, etc.). “It’s not o.k. to bite.” Tell the child what he/she can do next time they experiences this emotion (i.e., you can say ‘My toy!!’ or ‘You can call my name and I will come help you”).
- If it is an older child, you can ask them what a better solution might have been.
- Redirect the child to another area. This might mean feeding the child, putting her down for a nap, or involving them in another toy or activity. Stay with that child until he/she becomes involved in the new activity.
- Finish the interaction on a positive note. Reassure the biter that he/she is still important to you and that you still care about them.

As A Caregiver, NEVER
- Bite the child back
- Encourage the victim to bite the child
- Humiliate the child

How Should I Inform The Parents?
Let the parents know that biting is a normal part of children’s development. Inform them of your policy before any incidents occur.

Biter’s Parents:
- Inform parents that their child bit someone.
- Stress the severity or mildness of the incident.
- Assure parents that you have taken care of the situation, and further reprimands are not necessary.
- If this is a recurring problem, work with the parents or a plan of action that will be reinforced in the home.
Victim’s parents:
- Inform parents that their child was bitten.
- Assure parents that you have taken care of the situation and that you are taking measures to prevent further incidents.
- Explain to them what your plan of action is if they ask.

What If I’ve Tried It All And Nothing Is Working?
It is your job as a caregiver to insure the safety of all children in your care. If one child is jeopardizing the safety of others by frequently biting, action must be taken. Sometimes no matter how hard you try to fix the situation and no matter how patient you are, a child may just not be a good match with your program. After talking to the parents, the best thing for the child may be to move him/her to a new child care setting. As this can be very upsetting for the child and his/her parents, it is important to be helpful and compassionate. Remember, this should be your last resort, after exhausting all other possibilities.

Successful Coping And Prevention Will Depend On:
- A well rounded and equipped program
- Appropriate supervision
- Your knowledge of and experience with children’s development
- Your reaction to the incident(s)
- Your follow though
- Parental reinforcement of the techniques used.
**Suggestions for Fire Drills**

- Check your child care area and locate two possible exit routes for each room.
- Plan a meeting place outside the house that is away from the both the house and the area where fire engines would park.
- Practice the fire drill escape every month with the children - even the little ones who are too young to really understand.
- You can make the practice into a game (like, Join the Train, Hop on Board, Follow the Leader, etc.). Games make the fire drills practices fun and less scary for the children.
- Teach older children how to crawl low where the cleanest air is and to feel the door before they open it.
- For children who cannot walk:
  a. Place the infants in a crib with rollers.
  b. If the children can sit alone, place the children in the "fire wagon."
  c. Use an "emergency quilt" (a large blanket, sheet, etc.).
- Place quilt on the floor, put babies into center, and pull up corners to carry out.
- Let parents know what you are doing so they can work with the children at home.

**P A S S -- Pull, Aim, Squeeze, and Sweep**

- **Pull** the pin at the top of the extinguisher that keeps the handle from being accidentally pressed.

- **Aim** the nozzle toward the base of the fire.

Stand approximately 8 feet away from the fire and **squeeze** the handle to discharge the extinguisher. If you release the handle, the discharge will stop.

- **Sweep** the nozzle back and forth at the base of the fire. After the fire appears to be out, watch it carefully since it may re-ignite!

**Congratulations** -- you did it!!!
